2020 Mazda Contingency Awards Program Payouts and Requirements

New program support highlights the contingency awards enhancements

In club racing and autocross, many auto manufacturers pay contingency awards, though not all. Of those who do, the philosophy has largely been to pay just the winner or, perhaps, the podium. Manufacturers want wins and podiums to be able to showcase.

Mazda is different. It wants to showcase the talented Mazda racers, but it also rewards many racers who finish deeper in the fields. In 2017, Mazda began paying deeper in the fields – often the top five finishing positions. In 2018, Mazda paid a little deeper overall. In 2019, it further expanded its awards to racers in endurance racing - American Endurance Racing (AER), ChampCar, and World Racing League (WRL). In all, Mazda has nearly doubled the number of racers it pays contingency awards to compared to three-plus years ago. In addition to the expansion of payouts, Mazda introduced the “[Mazda Collection](#)” line, which features premium apparel and accessories. The Mazda Motorsports contingency program, starting in 2019, offered many racers the opportunity to earn rewards *points*, often as bonuses, to help them acquire merchandise from the Mazda Collection, as well as to acquire competition parts. And beginning in 2020, Mazda will focus some of the contingency awards on new programs, and bolstering select existing program – Spec MX-5, SCCA Time Trials, Teen Mazda Challenge, and others.

Spec MX-5: Club Racing Done Right

On August 21, 2019, Mazda Motorsports announced Spec MX-5. Designed as an affordable, reliable, tech-able and fun-to-drive option for club racers, Spec MX-5 will establish a nationwide ruleset and spec parts list for the 2006-2015 chassis Mazda Miata MX-5. While the car will be classified into NASA (ST5) and SCCA club racing, Mazda and Winding Road Racing are creating a spec series to compete at select, marquee events in 2020, culminating with what is expected to be the largest prize pool a club racing series will offer in 2020. Spec MX-5 has already been classified in other series including American Endurance Racing, ChampCar and the World Racing League.

“Mazda Motorsports has always strived to provide a high level of support and value for its club racers,” said David Cook, Mazda Motorsports Business Development Manager. “Spec MX-5 provides an opportunity for us to put into place many of the lessons we have learned with our other successful classes, including Spec Miata. Much like the first- and second-generation Mazda Miata, the third-generation Miata provides an excellent foundation for a club race car. We’ve created a parts and rules package founded on the four pillars that are required to offer a program we can stand behind. Those pillars: affordability, reliability, tech-ability and fun-to-drive. This is club racing done right. And we’ve launched this program to be easy for racers to climb into. Some may say it’s the easy button. We say it’s the ‘Mazda button.’ Just call us and we can help take it from there.” (800.435.2508)

Payout Reductions

To earn full Mazda Contingency Award payout for *RACES*, unless otherwise specified, the Mazda competitor must finish ahead of at least four competitors. Payout reductions are applied for finishing ahead of three or fewer competitors:

- If the Mazda competitor finishes ahead of only *one* class competitor, the award amount is reduced by 50%

The Time Trials Experience

<https://timetrials.scca.com/pages/philosophy>

TT National Tour events are designed to be highly engaging, accessible and inclusive. Camping at the track is encouraged. Friends and family are welcome, and food and drink is available on site.

Competition is only one aspect of the Time Trials experience which also includes social elements, personal challenge, partner engagement, food, media, photography and fun. Each of these elements are crafted to create an experience where every participant has the opportunity to enjoy the event, regardless of finishing position.

Most importantly, the on-track experience is facilitated. Each group has a coach and each session has a debrief. The coach's job is to make sure everyone approaches the event from the perspective of "Same Team," with shared goals of clean laps and safe, fun and fair competition.

Contingency Awards: Mazda Factory Driver Coaching via Racers360

To support the philosophy of Time Trials, where it's not all about winning (though a component is to improve on course), Mazda Motorsports will offer five Mazda drivers, per event, 1:1 coaching from Mazda Motorsports' factory drivers Tom Long and Andrew Carbonell using the Racers360 platform. Each of the five Time Trials winners will be selected via a random draw during the first SCCA driver's meeting at the each event.

Mazda contingency award winners will need to upload data or one video lap through the Racers360 platform for the Mazda Motorsports' factory driver to receive. The factory driver will review and upload a video captured of him providing feedback to the content he reviewed. Feedback is to be used at the cautionary discretion of the driver. The driver is responsible for their actions and decisions on the race track (control of their car), not the driver coach, Mazda Motorsports, or Racers360.

Why Merge Super Tour into Majors Payouts?

When the Hoosier Super Tour racing was launched, Mazda invested additional resources to help spur its growth. Often Mazda invests additional resources in projects and initiatives that we believe in for multiple years until its value is realized. In 2020, Mazda will use these additional resources to invest in new grassroots initiatives. Mazda still invests, however, more contingency awards into the Super Tour and Majors than any other auto manufacturer.
